Technology Distribution

PCS Connects

Traditional 9th and 10th graders will be able to pick up their laptop from the auditorium lobby. All students will also be able to return PCS devices at this time. Students have access to Office365 and will need to connect to our PCS wireless network. Students must be able to bring computers (fully charged) to school every day. Students also have the choice of using their own computer and not checking out a PCS device. **A parent/guardian must be able to accompany the student to pick up computer.** Any technical issues/repairs/damages must be reported ASAP to Mr. Barnum or Mr. Borg.

***CAT Students will receive their tablets from Mr. Borg in T-110. ***
