

CLIMATE SURVEY RESULTS 2008-2009 S.Y.

The purpose of the Pinellas County Schools climate survey is to provide the Superintendent and the Regional Superintendents with a cross-sectional snapshot of staffs' perception of their school and the district. This is the fifth year the Climate survey has been administered with a similar design. Results from previous Climate surveys are available on the district's website (http://www.pcsb.org/forstaff/climate_survey.html)

This survey is sent to all school-based staff. No individual data is reported; only summarized data is presented in the report.

Before this year, each school's Pro-Ed Facilitator distributed a paper copy of the climate survey during school staff meetings. However, for the current survey the entire survey was placed online on a secure website and an email memo was sent to all the school-based employees inviting them to participate in this online only survey. A comment section at the end of survey provided an opportunity for the respondent to provide further comments and suggestions. Because the survey was administered only online many concerns were raised about its anonymity; these concerns were responded to by email or phone by the staff of Research and Accountability with assurances about the confidentiality of the data collection process.

A total of 7,212 employees responded to the survey.

The employment classification of the survey respondents is presented in the following table.

	Percent	Number
Instructional staff	73.7%	5,311
Non-Instructional Staff	22.3%	1,607
Administrative	4.1%	293
Total		7,211

The report is organized in six sections. The first section provides the district level results and a chart that compares the results of the climate survey for the past three years. The next three sections contain the results for each of district's elementary, middle, and high schools. The last two sections contain the results for exceptional schools and workforce education.

District Summary

2009 CLIMATE SURVEY RESULTS for ALL SCHOOLS

	Strongly Agree		Agree		Neutral		Disagree		Strongly Disagree	
	Count	Row N %	Count	Row N %	Count	Row N %	Count	Row N %	Count	Row N %
