Best-Source Certificate

The items in the current Rifton Equipment catalog and at www.Rifton.com are designed and manufactured solely by Rifton Equipment, at our two facilities in New York State. When you buy from Rifton, you buy directly from the factory.

Rifton is committed to on-going service of our equipment in the field. Our warranty is simple: If any Rifton product breaks or fails in service during the first year, we will replace it free of charge.

Rifton has a captive replacement parts and component policy for our equipment. No other company manufactures replacement parts for Rifton products. Most small components on our products can be replaced at no cost or for a nominal sum, to keep the products in optimal working order. This policy may not always apply to Rifton products purchased through another vendor.

Rifton offers a 25% discount off catalog prices for all school districts as well as free delivery within the continental United States. Our normal delivery time is two weeks or less. We can accept returns within 30 days with a 10% restocking fee.

Rifton provides customer-training resources in the form of videos directly to the customer, and inservices on location for school districts that request training to benefit from the full and optimal functionality of Rifton equipment.

Rifton has a history of working closely with therapists and special education teachers. Schools that buy direct from Rifton enjoy the benefits of Rifton's dynamic product design process; their clinicians are eligible to participate in Rifton's focus groups in New York and trial new products and design concepts. We value the input of clinicians and the direct link they provide to the children who use our equipment. This also enables us to provide product improvement updates and news about new products directly to those who are using them.
