

Comparison of Administrators for All School Types

Goal Statement:

- The district is committed to continued support of minority instructional and administrative staff assignments at all school levels, in central administration, and in the general geographic apportionment that are at least as equitable as levels that existed in the 1998–1999 school year.

Data Source: Racial Breakdown for Administrators by School Type
1998-1999 vs 2015-2016 ~ Black/Non-Black

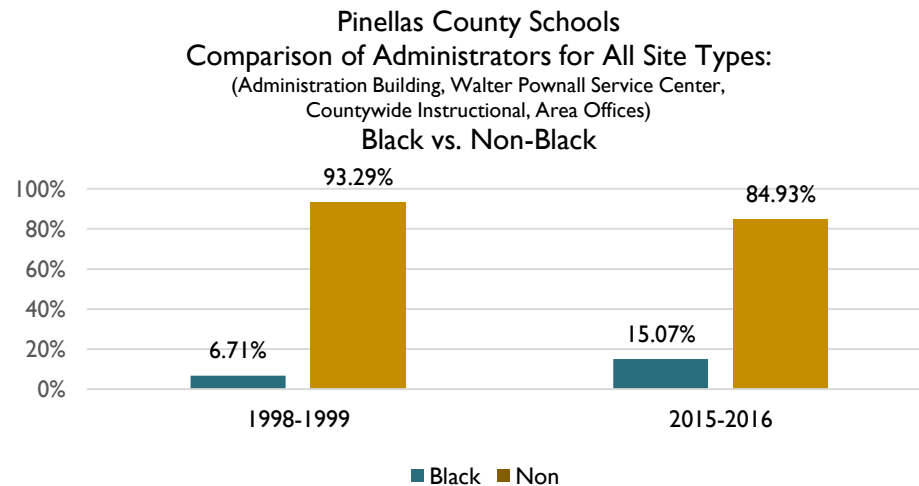

Action Steps:

We continue to make great strides in this area. We actively recruit teacher leaders through our aspiring leaders program and addition to actively recruiting out-of-district. We have increased our level of communications throughout the district with our monthly “Chalk Talk” newsletter and through our department of Strategic Communications. As a result of our active recruiting, we have increased the number and quality of our participants in our leadership preparation programs such as “A prep” and our Level II Principal Certification Program. This year alone, 40% of our administrative interns assigned to our middle schools are black.

Comparison of Administrators for All Site Types

Goal Statement:

The district is committed to continued support of minority instructional and administrative staff assignments at all school levels, in central administration, and in the general geographic apportionment that are at least as equitable as levels that existed in the 1998–1999 school year.

Data Source: Racial Breakdown for Administrators by Site Type
1998-1999 vs 2015-2016 ~ Black/Non-Black

Action Steps:

We continue to improve and make great strides in this area as well. The district's Human Resources Division, along with the department of Professional Development, continue to implement best practices in providing leadership opportunities at the central administration level. We are currently looking at developing a program to introduce site-based and school-based administrators who would like to intern and seek experience at the central administration level in order to move into such positions when such an opportunity becomes available. We also actively recruit outside the district in order to keep a balanced quality of internal and external candidates.

Comparison of All Classroom Instructors

Goal Statement:

The district is committed to continued support of minority instructional and administrative staff assignments at all school levels, in central administration, and in the general geographic apportionment that are at least as equitable as levels that existed in the 1998–1999 school year.

Data Source: Racial Breakdown for Instructors (Classroom) by Job Type
1998-1999 vs 2015-2016

Action Steps:

We continue to stay in the equitable range in the most competitive of environments for recruiting and securing the best black candidates for our vacant teaching positions. We continue to recruit in-state and out-of-state for critical need candidates, including minorities, as we develop our relationships with colleges and universities across the country. In addition, our focus when working with the historically black colleges and universities, is to compete with other Florida districts for a limited number of minority candidates.

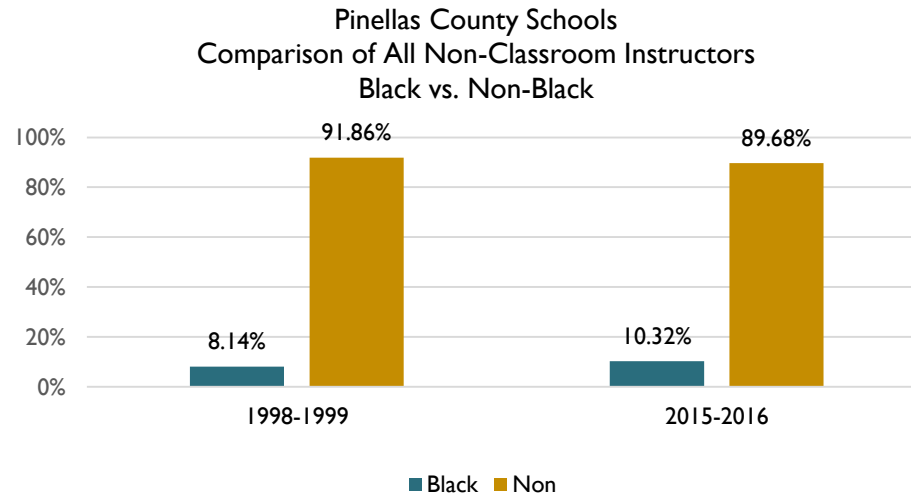

This year we have contracted with TNTP (The New Teacher Project, Inc.), a districtwide initiative, to assist with the recruitment, retention, and development of teachers in five of our “Scale Up for Success” schools (Campbell Park, Fairmount Park, Lakewood, Maximo, and Melrose Elementary Schools).

We also offer advanced contracts with our teacher internship programs and on recruiting trips. We are also entering our third year of Pinellas County School District’s Job Fair whereby we interview and hire candidates on the spot in early June during our Open Hiring period.

Comparison of All Non-Classroom Instructors

Goal Statement:

The district is committed to continued support of minority instructional and administrative staff assignments at all school levels, in central administration, and in the general geographic apportionment that are at least as equitable as levels that existed in the 1998–1999 school year.

Data Source: Racial Breakdown for Instructors (Non-Classroom) by Job Type
1998-1999 vs 2013-2014 ~ Black/Non-Black

Action Steps:

We continue to exceed in this area as well with regards to the 1998–1999 school year levels. We heavily recruit candidates such as guidance counselors, school psychologists, social workers, and the like through internship programs and direct contact with specific departments at various colleges and universities including the historically black colleges and universities.
