Description

2-digit district number used for DOE database reporting on the MSID file and on student and staff database record submissions

District name as it appears on the MSID file

4-digit school number

School name on MSID file

The reported accountability school type (01 = elementary; 02 = middle; 03 = high; 04 = combination)

Indicator (Y/N) showing whether the school is a charter school.

Indicator (Y/N) showing whether the school is a Title 1 school.

Indicator (A/E/N) showing whether the school is an alternative school (A), an ESE Center (E), or a regular school (N)

Applicable accountability region (one character).

One of nine subgroups used for AMO reporting (same as subgroups previously reported for AYP)

The school grade assigned to the school, shown in the row for the "All Students" group; NA for other groups. NA for schools (All Students) that were not assigned a regular school grade.

Percent of full-year enrolled eligible students tested in reading

For 2011, the percent scoring at level 3 or higher on FCAT 2.0, or scoring at level 4 or higher on the FAA - for reading

For 2012, the percent scoring at level 3 or higher on FCAT 2.0, or scoring at level 4 or higher on the FAA - for reading

A Y/N indicator showing whether at least 95% of eligible students scored satisfactory or higher in reading. Schools and subgroups with "Y" reported do not have to increase the annual percent scoring satisfactory or higher in order to meet the AMO target.

The AMO target for the percent scoring satisfactory in reading, calculated separately for each subgroup; the "All Students" group represents the school level data

A Y/N indicator showing whether the percent scoring satisfactory is equal to or greater than the Target AMO in reading; schools and subgroups that have at least 95% scoring satisfactory automatically meet the target. Schools and subgroups that meet the Safe Harbor criterion also meet the target.

A Y/N indicator showing whether the Safe Harbor criterion is met for subgroups that have at least 95% tested. The Safe Harbor criterion is met if the prior year's percent of non-proficient students is reduced by at least 10 percent.

A Y/N indicator showing whether, when "Met Target Reading" = No, the percent scoring satisfactory in reading for the current year is greater than the percent scoring satisfactory for the prior year. If "Met Target Reading" = Yes, then "Improving, Reading" is entered as NA.

A Y/N indicator showing whether, when "Met Target Reading" = No, the percent scoring satisfactory in reading for the current year is less than or equal to the percent scoring satisfactory for the prior year. If "Met Target Reading" = Yes, then "Maintaining or Declining, Reading" is entered as NA.

A Y/N indicator showing whether, when "Met Target Reading" = No, the percent scoring satisfactory in reading for the current year is less than the percent scoring satisfactory for the prior year. If "Met Target Reading" = Yes, then "Declining, Reading" is entered as NA.

Percent of full-year enrolled eligible students tested in math

For 2011, the percent scoring at level 3 or higher on FCAT 2.0 or EOCs, or scoring at level 4 or higher on the FAA - for mathematics

For 2012, the percent scoring at level 3 or higher on FCAT 2.0 or EOCs, or scoring at level 4 or higher on the FAA - for mathematics

A Y/N indicator showing whether at least 95% of eligible students scored satisfactory or higher in math. Schools and subgroups with "Y" reported do not have to increase the annual percent scoring satisfactory or higher in order to meet the AMO target.

The AMO target for the percent scoring satisfactory in math, calculated separately for each subgroup; the "All Students" group represents the school level data

A Y/N indicator showing whether the percent scoring satisfactory is equal to or greater than the Target AMO in math; schools and subgroups that have at least 95% scoring satisfactory automatically meet the target. Schools and subgroups that meet the Safe Harbor criterion also meet the target.

A Y/N indicator showing whether the Safe Harbor criterion is met for subgroups that have at least 95% tested. The Safe Harbor criterion is met if the prior year's percent of non-proficient students is reduced by at least 10 percent.

A Y/N indicator showing whether, when "Met Target Math" = No, the percent scoring satisfactory in math for the current year is greater than the percent scoring satisfactory for the prior year. If "Met Target Math" = Yes, then "Improving, Math" is entered as NA.

A Y/N indicator showing whether, when "Met Target Math" = No, the percent scoring satisfactory in math for the current year is less than or equal to the percent scoring satisfactory for the prior year. If "Met Target Math" = Yes, then "Maintaining or Declining, Math" is entered as NA.

A Y/N indicator showing whether, when "Met Target Math" = No, the percent scoring satisfactory in math for the current year is less than the percent scoring satisfactory for the prior year. If "Met Target Math" = Yes, then "Declining, Math" is entered as NA.

Points earned in the school grades and district grades calculations for learning gains of the Low 25% in reading. Entered for the "All Students" subgroup only.

Points earned in the school grades and district grades calculations for learning gains of the Low 25% in math. Entered for the "All Students" subgroup only.

The four-year adjusted cohort graduation rate reported for 2009-10, calculated according to federal criteria (34CFR 200.19). Reported for all students and subgroups.

The four-year adjusted cohort graduation rate reported using the most recent available data (2010-11), calculated according to federal criteria (34CFR 200.19). Reported for all students and subgroups.

The percent of eligible students scoring satisfactory or higher in writing. Satisfactory performance is attained by students scoring at 3.0 or higher on FCAT Writing or at level 4 or higher on the FAA in writing.

AMOs in reading are provided for years through 2017.

AMOs in math are provided for years through 2017.

For elements in which the total count of students in the denominator is less than 10, results are suppressed (blank cell).

Because of extensive changes to Florida's 2012 school grading system, annual targets for learning gains of the Low 25% in reading and math were waived for one year only.

Changes in rating criteria for FCAT Writing essays resulted in adjustments to scoring criteria, making results for 2012 and 2011 noncomparable.

Results are for 2012 (the 2011-12 school year) unless otherwise marked in column headings.
