Secretary/Bookkeeper

Dear Community Friends,

Gulf Beaches Elementary Magnet School will again be implementing a Partnership Program for the 2015/16 school year. This program encourages community members to become classroom partners through financial donations and promote community involvement at our school with opportunities to mentor and volunteer as well. Partnerships can include businesses, interested community members such as retirees, members of community service organizations and families.

For a tax-deductible donation, starting at \$100, a business, community organization or individual can become a partner with a class, a special project or department in our school, and in turn a partner in education.

We believe that your partnership with our school should be mutually beneficial. In return for your financial donation, you will receive

- Recognition on our school website, our marquee and newsletter
- A certificate that recognizes your partnership
- An invitation to our end of year appreciation celebration

In addition to your financial donation, we invite you to attend all functions such as the School Advisory Council meetings and other relevant school events.

If you are interested in becoming a partner in education at Gulf Beaches Elementary Magnet, or know of a business that may be, please fill out a Partnership Program Agreement.

Thank you for your careful consideration. We commend your commitment to education.

Sincerely,
The Staff of Gulf Beaches Elementary Magnet School
