

Title I Parent Survey Results

2020-2021

Pinellas County Title I Schools

San Jose Elementary School

2020 - 2021 Responses n = 107 (40% Response Rate) (2019 - 2020, 45%)

The Pinellas County School District's Title I office conducted a parent survey during January/ February 2021 to assist Title I schools in evaluating their current family engagement practices. The survey was offered online and distributed in paper/pencil form to all students to increase parent participation. Schools may use the survey data to identify areas of success and areas that need improvement. Survey results can also be used to determine priority areas and to guide planning of strategies and actions steps to strengthen family engagement.

This report contains a summary of the parent survey results for San Jose Elementary School.

Survey Considerations:

When interpreting parent response results, keep the following cautions and limitations in mind:

It is difficult to generalize to all parents from small numbers of responding parents. Under the assumption that these data represent random sampling, the total Title I District program did have a response rate from parents large enough to be considered to be statistically representative of all parents; 8,767 parents, 22%, of the District's Title I parent population responded.

A total of 107 parents from San Jose Elementary School (approximately 40%) responded to this survey. San Jose Elementary School's response rate was high enough to be considered statistically representative of parent opinions at this school; for the purposes of this survey, the necessary threshold was found to be around 15%. These data may be used cautiously as parent feedback. In the table below, this school's responses are compared to all of the district's Title I parent responses.

Percentages in tables have been rounded to the nearest whole percentage to assist with readability, although comparisons to prior years and to district results may be based on further decimal places.

Above each survey domain table, open boxes are provided to identify and record **Areas of Success** and **Opportunities for Growth** based on the data displayed (e.g. highest rating, lowest rating, current year versus prior year-increases or decreases, school ratings versus district ratings).

Survey Results and Explanations:

Table 1 displays parent responses to questions relating to the quality of the overall implementation of the Title I program within the district.

These percentages reflect parents' overall agreement to how well the Title I program is being implemented at the school. San Jose Elementary School scored above the district average for this question grouping (66% vs 59%) and scored about the same as last year in this question grouping (66% vs 66%).

Title I Basics

Statement	% Yes School (2020-2021)	% Yes School (2019-2020)	% Yes District (2020-2021)	% Yes District (2019-2020)
I know what it means to be a "Title I" school.	69%	71%	65%	70%
I know I have the opportunity to provide input for the school's Title I budget.	60%	60%	57%	63%
I know about Title I events at my school.	60%	63%	53%	62%
I know what programs and resources Title I provides.	64%	57%	52%	59%
I often review the parent compact so I know what I am expected to do.	61%	62%	51%	57%
I know about extended learning opportunities at my child's school.	81%	81%	74%	76%
Total Title I Basics Average	66%	66%	59%	64%

San Jose Elementary School

Table 2 displays parent responses to questions relating to parents' direct involvement at the school.

Parents indicated whether they attended the Annual Title I Meeting, volunteered at the school, or attended special events at the school. San Jose Elementary School scored around the district average for this question grouping (16% vs 15%) and saw a decreased score from last year for this question grouping (16% vs 47%).

Table 2

Direct Parent Involvement

<i>During this school year, did you...</i>	% Yes School (2020-2021)	% Yes School (2019-2020)	% Yes District (2020-2021)	% Yes District (2019-2020)
attend the Title I Annual Meeting?	17%	41%	17%	35%
volunteer at this school?	6%	26%	9%	18%
attend events, such as Reading Nights, Donuts for Dads, etc?	24%	74%	19%	46%
Total Direct Parent Involvement Average	16%	47%	15%	33%

Table 3 displays parent responses relating to potential barriers to having direct involvement with the school.

Parents were asked to indicate whether specific challenges prevented their direct involvement at the school. Because parent involvement is one of the four cornerstones of the Title I program, these barriers should be considered when planning family events or establishing parent communication plans and processes. San Jose Elementary School scored slightly below the district average for this question grouping (10% vs 13%) and scored about the same as last year in this question grouping (10% vs 12%). (Since these are barriers to parent involvement, low parent agreement rates are desired for this table).
