Additional TEAS Information

The TEAS is an 170 question advanced reading, math, language and science test which is required for entry into the Practical Nursing Programs at Pinellas Technical College. It is not a nursing test – you do not have to be a nurse to answer the questions – but the questions are nursing related, for example, the knowledge needed to answer the questions can be transferred over to a nursing related circumstance. It is recommended that you must have scored at least 11.0 on the level A of the CASAS in all three areas (total math, reading and language) before taking the TEAS test. The content areas of the test include: reading, math, science and English language usage. The test will take approximately 3.5 hours to complete. You must score at least 56% on the TEAS Version 7 test to be considered eligible for application to the Practical Nursing program. Approximately 40% of students take the TEAS more than once. Test preparation is strongly encouraged before taking this comprehensive test. The TEAS may be taken only four (4) times in a year, from your first test date. There is a required 14 day waiting period between testing. TEAS test scores are good for two (2) years from the class start date.
