ABOUT

Lake St. George Elementary is a neighborhood school with a warm and friendly atmosphere built in 1988. Our beautiful campus has an original school bell that the 5th grade safety patrols physically ring each morning to start the day. Our property also has a large PE field and access to a science observation deck overlooking a small lake. In addition to serving students in Kindergarten through 5th grade, Lake St. George also provides pre-school for 3 and 4-year-old scholars as well as special programs for students with autism in an inclusive and nurturing learning environment.
