ABOUT

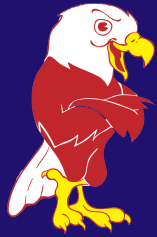

At Anona Elementary our focus is providing an academic environment with the highest student achievement possible, in an engaging and safe learning environment. Children and teachers alike must become master learners, problem solvers and world communicators in order to be effective and successful. We are proud to have received an "A" grade for the past four school years. Outstanding students, a dedicated staff, and supportive parents all work together to help our students succeed. We are all proud of Anona's accomplishments and we will continue to strive for excellence.

Anona Elementary School was originally established in the 1800's. The first recorded history of Anona is in 1874. While the school building itself has been moved from its original location, we still strive to maintain that small community atmosphere, while increasing our use of technology offers your child the best of both worlds. Today, we have a flourishing school community with more than 400 students in Kindergarten through Fifth Grade.
