ABOUT

A close to home community school serving a diverse population of students. All students are educated to meet or exceed grade level expectations.

Our Vision - As a community, we will provide the necessary support to all students so they are college and career ready, reaching the highest level of achievement.

Our Mission - All stakeholders will work together in a cooperative partnership which will enable our students to become college and career ready. Together we will provide a balanced curriculum which is driven by data and based on individual student needs.

POINTS OF PRIDE

- Students are immersed in a culturally responsive learning environment in all classrooms.
- Students have one to one devices and access to various forms of technology & programs are available to enrich and remediate learning in all subject areas.
- A dedicated Science Lab for 2nd-5th grade students to conduct hands-on activities for exploratory learning.
- We are an AVID school providing all students with strategies to be college ready!

SPECIAL SERVICES & PROGRAMS
