Principal's Message

Parents I hope that you enjoy the spring break, week of March 13th and just a reminder that school will be back in session on March 20th (hurricane make up day).

Last week was a great week for our STEM Club students. Three groups of students simulated a team huddle with our Engineering Advisory Board members. Our team of students presented their current projects and discussed problems they encountered, how they solved those problems and new problems that have arisen. All three teams received feedback and suggestions from our engineers that sit on the board. All the STEM Club students that participated did a great job during the presentation piece and were commended on their efforts with their projects.
